Re: NPDES Permit No. NM0029165

Dear Mr. Ramos:

The above referenced National Pollutant Discharge Elimination System (NPDES) permit issued to authorize the discharge from your facility requires submission of periodic reports to allow us to monitor your compliance with your permit. The following need to be noted:

- The Semi-annual Toxicity Discharge Monitoring Report (DMR) for the monitoring periods ending June 2004, discharge number TX1S, has not been received.
- You need to mail the above requested information to my attention at this office within ten (10) working days of receipt of this letter.

Your facility should take whatever remedial action is necessary to prevent the recurrence of the violations noted above.

We have placed in your file a list of the above violations, as well as any corrective measures you have reported. In the event of future violations, we will use this information in determining what appropriate actions to take.
